

A vibrant illustration featuring four happy children of diverse ethnicities interacting with a large pencil-shaped book against a blue starry background. The book's body is green, and its lead tip is yellow. The word "COUNT" is written in large yellow letters on the top half of the pencil, and "and ADD" is written in red letters on the bottom half. A large purple number "5" is visible at the bottom left of the pencil. Various mathematical symbols like "+", "2", and "3" are scattered around the scene.

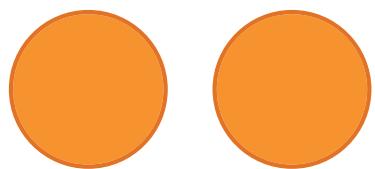

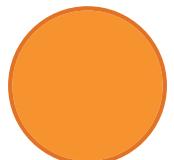

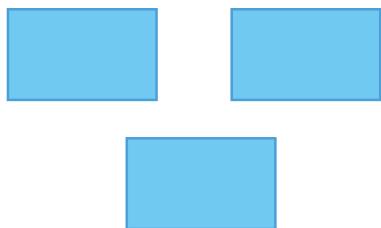

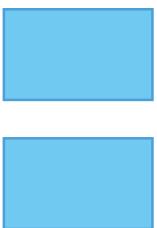

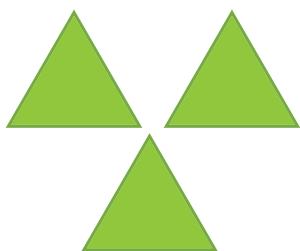

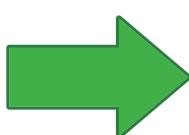

COUNT and ADD
